

Anushka Bansode

Data Analyst | Data Science

Pune, India | anushkabansode348@gmail.com | LinkedIn | GitHub | Portfolio

Summary

Pre-final year B.E. AI & Data Science undergraduate with hands-on experience in SQL analytics, Python-based Exploratory Data Analysis (EDA), data cleaning and wrangling, statistical analysis, and Business Intelligence (BI) dashboard creation using Power BI and DAX. Built 5+ end-to-end data analytics and applied-AI projects on real-world datasets (1.4K–100K+ rows), including a deployed AI agent. Seeking a Data Analyst or Data Science Internship to deliver data-driven insights, predictive modeling, and support business decision-making.

Technical Skills

Languages: Python, SQL

Data Analytics: Data Analysis, EDA, Data Cleaning & Wrangling, Statistical Analysis, A/B Testing, Hypothesis Testing, Customer Segmentation, RFM Analysis, Time Series Forecasting, Predictive Modeling, KPI Development

Visualization & BI: Power BI (DAX, KPIs, Dashboards), Data Storytelling, Matplotlib, Seaborn, MS Excel (VLOOKUP, XLOOKUP, Pivot Tables)

Libraries: Pandas, NumPy, Scikit-learn, SciPy, Statsmodels, Streamlit, SQLAlchemy

Databases: PostgreSQL, MySQL — JOINS, CTEs, Window Functions, Subqueries, GROUP BY

Tools & Deployment: Git, VS Code, Jupyter Notebook, Google Colab, Docker, FastAPI, REST APIs, Railway

ML & AI: Classification, Feature Engineering, SHAP Explainability, LLM-Powered Automation (LangChain, Groq API)

Professional Experience

Data Science Intern Jan 2026 – Feb 2026
ScaleFull Technologies, Pune, India

- Extracted, cleaned, and transformed 50K+ rows of real-world business data using Python (Pandas) and SQL; performed end-to-end EDA to surface actionable trends and prepared structured stakeholder reports; developed and evaluated ML classification models using Scikit-learn.

Projects

Olist E-Commerce Analytics & Revenue Forecasting Apr 2026 – Jun 2026
PostgreSQL, Python, Power BI, DAX, SciPy, Statsmodels [GitHub](#)

- Executed 25+ advanced SQL queries (CTEs, window functions, multi-table JOINS) on 100K+ orders; built a 2-page Power BI dashboard with DAX KPIs tracking revenue, retention, seller performance, and delivery SLA.
- Conducted A/B test on 80K+ orders using Mann-Whitney U test (Shapiro-Wilk normality check); identified credit card AOV 67% higher than voucher ($p < 0.0001$, effect size 0.34); delivered 3 revenue-protection recommendations.
- Performed RFM segmentation on 96K+ customers; identified 96.5% single-order rate as core retention gap; built an ARIMA(1,1,1) model forecasting ~₹1M/month revenue and detecting a growth plateau.

RepoPulse – AI Agent for GitHub Repository Health Evaluation Jun 2026 – Jul 2026
Python, LangChain, Groq (Llama), FastAPI, PostgreSQL, Streamlit, Railway [GitHub](#) | [Live API](#) | [Live App](#)

- Built and deployed an autonomous AI agent that pulls repository data via the GitHub REST API and generates plain-English health verdicts with confidence scores, backed by a FastAPI + PostgreSQL data layer.
- Shipped a live, publicly accessible Streamlit interface with repository compare mode; deployed end-to-end on Railway.

Customer Churn Prediction System Mar 2026
Python, Random Forest, Scikit-learn, SHAP, Streamlit [GitHub](#) | [Live Demo](#)

- Built an end-to-end churn prediction pipeline on a telecom dataset; engineered features via EDA and achieved ROC-AUC of 0.84 using Random Forest with preprocessing pipelines.
- Deployed a Streamlit web app surfacing churn probability scores, SHAP-based feature importance, and business recommendations for non-technical stakeholders.

HR Attrition Analysis & Dashboard Dec 2025 – Feb 2026
Python, Pandas, Seaborn, Power BI, DAX [GitHub](#)

- Analyzed IBM HR dataset (1,470 employees); identified 16.12% attrition rate, overtime as a 3× risk factor, and a 30% income gap between retained vs. attrited employees; built a 2-page Power BI dashboard with 6 retention recommendations.

Superstore Sales Analysis & Dashboard Feb 2026
Python, Pandas, Power BI [GitHub](#)

- Analyzed \$2.29M revenue across 4 regions and 17 sub-categories; identified a 12.47% profit margin and 3 loss-making product lines; delivered a Power BI dashboard with 5 actionable business recommendations.

Education

B.E. in Artificial Intelligence & Data Science (Pre-Final Year) 2022 – 2027
Dr. D. Y. Patil College of Engineering, Pune

Certifications

AWS Cloud Foundations — Amazon Web Services (2026) | Cloud Computing — NPTEL (2025)
